

Water Resources Programme — At a Glance

Resources:

26 staff members (professional, technical and support staff) with a regular budget of \$3.2 M for the 2006–2007 cycle. Programme resources include a fully equipped isotope laboratory.

Programme Delivery:

Activities include Coordinated Research Projects (CRPs), collection and dissemination of global isotope data (precipitation, rivers, groundwater, atmospheric moisture), isotope reference materials, education and training events and materials, information exchange (symposia, workshops, scientific meetings), and TC projects (2005-2006 TCF funding: \$4.2 M; external funding: \$1M).
